The Dirt Dog DHP8 eight foot, DHP10 ten foot and DHP12 twelve foot pull-type discs are perfectly matched for agricultural utility tractors having 45 to 80 drawbar horsepower. They have applications in seed bed preparation, soil pulverization, and tillage on smaller farms, ranches, construction sites, race tracks, rodeo grounds, nurseries, reclamation sites, and sod farms. Economy conscious customers will find them more than equal to just about any soil cultivation task you can throw at them. With choices of notched or smooth 20" or 22" discs mounted on fore and aft gangs that have easily adjustable angling, the DHP8, DHP10 and DH3512 readily adapt to a wide range of tillage conditions. With its heavy duty frame construction, rugged tongue and solid axle design you can expect years of service out of your Dirt Dog pull harrow.
