

DIRT DOG®

Root Rake & Root Rake Grapple

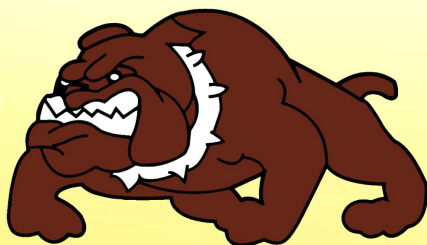

- Independent Grapple Arms or One Solid Grapple Arm
- 1 3/8" Thick Tines
- Replaceable Skid Steer Teeth
- One piece Quick Attach Plate
- Greasable Pivot Points
- Replaceable Pivot Bushings
- 52 3/4" Grapple Opening

The Dirt Dog Root Rake and Root Rake Grapple are designed to handle the toughest jobs you can throw at it. The RRGR allows you to remove logs, rocks, roots & debris with ease. The Root Rake can be used to unearth large rocks and stumps with its long tines and replaceable plow points. The Root Rake Grapple can be used as one solid arm, or remove the middle arm section and tackle odd shaped objects with the added control of two independent arms. Whatever obstacles are in your way, Dirt Dog's Root Rake and Root Rake Grapple can move it.
