

DIRT DOG®

Rock Bucket Grapple & Rock Bucket

- 100 HP MAX FOR RUBBER TIRE MACHINES
- 80 HP MAX FOR TRACK MACHINES
- 3/8" QUICK ATTACH PLATE
- 2 - 9/16" TINE SPACING
- 3/4" X 6" CUTTING EDGE OR LASER CUT FRONT SIFTER AVAILABLE

Dirt Dog's Rock Bucket and Rock Bucket Grapple are the perfect Skid Steer tool for moving rocks, concrete and small debris. With its solid Quick Attach Plate weldment and square tube frame, Dirt Dog's RB and RBGR are built for heavy, everyday use. Dirt Dog's Rock Bucket and Grapple Buckets are constructed with 3/8" steel slats that have a built-in material lip to keep rocks and small debris from sliding out of the bucket, making your job faster and easier. The RB and RBGR are built with either a 3/4" x 6" cutting edge or an optional laser cut sifter plate depending on user preference. Please visit us at www.DirtDogMfg.com to see our full line of Skid Steer products.
